PROFESSIONAL SUMMARY

Full Stack Web Developer with 6+ years building and scaling production web apps for global clients across SaaS, e-commerce, and CRM, ERPs. Shipped REST APIs serving [10k+] users, cut deployment time [70%] with Docker + CI/CD, and reduced production bugs [45%] through automated testing. Skilled across Core PHP with Laravel and the MERN stack (MongoDB, Express.js, React, Node.js) plus Next.js, and. Strong on web security, query optimization, and clean Git workflows.

TECHNICAL SKILLS

Languages: PHP, JavaScript, TypeScript, SQL, HTML5, CSS3

Frameworks & Libraries: Laravel, React, Next.js, Node.js, Express.js, Mongoose, jQuery, Bootstrap, Tailwind CSS, Bootstrap 5

MERN Stack: MongoDB, Express.js, React, Node.js (Full-stack JS apps, RESTful APIs, JWT auth, Mongoose ODM)

Databases: MySQL, PostgreSQL, MongoDB, Redis, RDBMS

DevOps & Tools: Docker, CI/CD (GitLab CI / GitHub Actions), Git, AWS (EC2, S3, LightSail), Linux / Ubuntu, cPanel

Testing & Security: PHP Unit, Jest, REST API design, JWT/OAuth, CSRF/XSS protection, Web Scraping Tools

CMS: WordPress, OpenCart, Magento, Shopify

Integrations: WhatsApp Business API, Stripe, Paypal, Razorpay, Pusher, Firebase, Twilio, OpenAI API, Google Maps

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer | N2R Technologies LLP, Noida · Jan 2022 – Present

- Led migration of monolithic **Laravel** app to service-oriented architecture using **Node.js** microservices, reducing deployment time by 70% via GitLab CI/CD pipelines.
- Architected and shipped **Laravel** REST APIs powering multiple SaaS modules, handling 10k+ concurrent users with <200ms p95 latency on AWS EC2 + RDS; also powered more than 50 mobile apps with secure API layers.
- Built and maintained **CRM & ERP** platforms end-to-end in **Laravel**, owning the full lead lifecycle from acquisition to conversion plus ongoing project maintenance.
- Integrated **Stripe**, **Twilio**, **WhatsApp Business API**, **OpenAI API**, and **Google Maps** across production apps, plus built **WhatsApp automation** flows that cut manual follow-up effort by 60%.
- Built **React.js / Next.js**-based SPAs with frontend and backend on Laravel and Node.js with real-time dashboards for multiple websites, cutting client-reported UI bugs by 45% through unit testing.
- Developed high-performance web scrapers in **Node.js** (Puppeteer) for chemical/pharmaceutical supplier catalogs, processing 50k+ SKUs with anti-blocking measures, alongside JWT/OAuth and CSRF/XSS hardening with zero post-launch security incidents.

Full Stack Developer | N2R Technologies LLP, Noida · Jun 2019 – Dec 2021

- Built Laravel + MySQL backends for CRM and e-commerce platforms (Swissvans, Trostaparking, Mosaiekexpo, Greattutors), supporting 10,000 active users across 3 countries.
- Developed Node.js RESTful integrations and dynamic WordPress themes for 12 client projects, reducing average delivery time by 30% through reusable component libraries.
- Wrote Eloquent ORM query optimisations for KPI/renewals dashboard (insurance domain), cutting report load time from 8s to <1s via indexed queries and eager loading.
- Collaborated with cross-functional teams using Git branching strategies (GitFlow), maintaining clean PR history across 15 active repositories.
- Designed responsive, cross-browser UI for client-facing portals, improving mobile usability and reducing bounce rates by 25%.

- Implemented automated database backups and deployment scripts, cutting release-related downtime by 40% across managed projects.

KEY PROJECTS

Swissvans.com — Website for UK Based Van Leasing Company (*Laravel · Next.js · MySQL · AWS*)

- **Laravel Backend:** Implements the core REST API handling scheduling, constraints, and triggering real-time WebSocket events via Laravel Reverb/Pusher when shift assignments change.
- **Next.js Frontend:** Provides a reactive, state-managed schedule UI that listens to live backend broadcasts to update employee shifts instantly without requiring page refreshes.

Trostaparkering.se — Website for Sweden Based Parking Company (*Laravel · Next.js · MySQL · AWS*)

- **Laravel Backend:** Powers a performance-optimized, multilingual API driving localized content routing, while executing a high-throughput data pipeline that scrapes, parses PDFs, and normalizes 50k+ parking SKUs for Excel export.
- **Next.js Frontend:** Delivers a blazing-fast, SEO-optimized multilingual user experience across Sweden, leveraging advanced caching, server-side localized rendering (SSR), and smooth static generation to handle high-traffic parkers efficiently.

Mosaiekexpo.co.za — POS Management SaaS for South Africa based Exhibitions (*Laravel · Blade · MySQL*)

- **Laravel Backend:** Powers a performance-optimized system driving automated exhibitor onboarding, digital screening workflows, and a real-time data sync engine that integrates Lightspeed Retail APIs to seamlessly harmonize sales, custom product labelling, and SKU inventories.
- **Laravel Frontend:** Delivers a lightning-fast, high-traffic user experience built with Blade, optimizing page load speeds and registration workflows for hundreds of participating exhibitors and thousands of expo visitors.

Greattutors.net — A LMS (Learning Management System) for London-based tuition centre (*Laravel · jQuery · MySQL*)

- **Laravel Backend:** Powers a robust learning management system handling automated homework workflows, recorded video streaming pipelines, and a custom e-commerce engine that dynamically builds personalized exam test papers.
- **Laravel Frontend:** Delivers an interactive, high-traffic portal built with Blade for mock exam testing, utilizing countdown exam timers, live question-rendering modules, and real-time student performance dashboards.

Ranthamboretigerreserve.in — Website for Safari operator with the Rajasthan Tourism Department (*Node · React · MySQL*)

- **Node.js Backend:** Engineered a high-concurrency booking engine managing real-time vehicle permit availability (Gypsy/Canter) across 10 safari zones, integrating multi-gateway payment processing and instant automated SMS/email booking confirmations.
- **React Frontend:** Developed an interactive, dynamic seat-selection dashboard with multi-step checkout forms, responsive tour package configuration panels, and live seasonal notification alerts regarding park closure statuses.

EDUCATION

Bachelor of Technology — Electrical Engineering

Noida International University · 2012 – 2016

All India Senior School Certificate Examination (CBSE Class XII)

Ramjas School No.4, Paharganj, Delhi 110055

All India Secondary School Examination (CBSE Class X)

AG DAV Centenary Public School, Model Town, Delhi 110009

CERTIFICATIONS

Web Development & Designing — 6-Month Industrial Training from **Amazing Training Basket Private Ltd.**, Sector 62 Noida (2019)
